-HL-VFFS Series      -HL-Tea Bag Machine

-HL-DP Series      -HL-1015EJ-YQ/Z

-Other Machine

## Packaging Box

### Bottom buckle box

### Characteristic

- 1.No need to glue the bottom.
- 2.Quick assembly.
- 3.The structure is stable.
- 4.environmentally friendly.
- 5.Cost-effective.

Popular Products: Tea, Skincare, Chocolate

### Double buckle box

### Characteristic

- 1.Buckles on top and bottom of box
- 2.Double-sided locking, secure closure
- 3.No need to glue, no fasteners required
- 4.Strong requirements on the stiffness, thickness and toughness of the cardboard
- 5.environmentally friendly

Popular Products: Make up, Medicine, Game Cards

## Packaging Box

### Folding box

### Characteristic

- 1.The upper and lower covers are completely closed.
- 2.No glue backing required, Fast folding.
- 3.Has better load-bearing capacity and good printing applicability
- 4.Usually made of corrugated paper, white cardboard, coated paper
- 5.Cost-effective, environmentally friendly and recyclable

Popular Products: E-commerce Express, Flight Meal Box, Pizza box

## Packaging Box

### Drawer box

### Characteristic

- 1.Push-pull mode to open or close.
- 2.Usually use high stiffness paper.
- 3.Good decorative.
- 4.Good protective properties.
- 5.Opening and closing with layered feel.

Popular Products: Bakery, Textile, Instant

### Carrying box

### Characteristic

- 1.Handle design for easy carrying
- 2.One-piece molding saves materials
- 3.Generally, the material has good load-bearing capacity and strength.
- 4.Good convenience helps the circulation of goods.

Popular Products: Fruit, Wine, Toys

## Packaging Box

### Cover box

### Characteristic

- 1.Easy to open and close, good display.
- 2.The structure is stable, and the materials are usually art paper, special paper, leather, cloth and PVC sheet.
- 3.Usually with lining such as flannel, sponge, EVA, corrugated paper tray, plastic tray to fix and protect the product.
- 4.The lid can be fixed with magnetic suction or lock.

Popular Products: Watch box, Gift, Luxury perfume

## Packaging Box

### Catering paper products

### Application

Fast food service, Drink, Cafe, Bakery

### Characteristic

- 1.Widely used in takeaway, hotel, restaurant service industry and supermarket.
- 2.Helps improve the convenience of daily life.
- 3.Generally use biodegradable materials and plastic-free coatings.
- 4.Functionality enhancement, all can have functions such as moisture-proof preservation or heating and cold chain transportation.

## Packaging Box

### Other paper products

### Application

Paper bag, Special shape box, Automatic packaging roll paper/craft paper

### Paper Products Printing

#### Printing process

We provide printing services and use different printing processes according to user needs and different product usage scenarios.

- 1.The surface of the product can be coated with glossy or matte film to enhance waterproof and wear resistance, and UV printing can present local high brightness or frosted effect.
- 2.Hot or cold pressed metal foils enhance the sense of luxury, while offset embossing simulates leather or wood grain textures.
- 3.Use molds to press three-dimensional patterns during the printing process to increase the tactile feel.

## Packaging Pouch

### 3 Side Seal Pouch

### Characteristic

- 1.Three-side heat sealing.
- 2.Multi-layer composite structure.
- 3.The structure is stable.
- 4.High utilization rate of storage space.
- 5.Suitable for automated production.

Popular Products: Pickled, Yeast, meat/sausage

### Stand up Pouch

### Characteristic

- 1.Can stand after filling without external support.
- 2.Zipper can be added at the opening.
- 3.The three-dimensional display, which is conducive to improving user experience.
- 4.Multi-layer composite structure.

Popular Products: Mix Candy, Dried Fruit, Biscuit

## Packaging Pouch

### Flat bottom 8 side seal bag

### Characteristic

- 1.Adopt eight-side heat sealing technology.
- 2.The bag has 8 sides that can be printed to display product information, making it more displayable.
- 3.Self-supporting flat bottom design make stable structure and good load-bearing capacity.
- 4.Can add zipper sealing and exhaust valve to prevent moisture and keep fresh.

Popular Products: Tea, Pet Food, Coffee Bean

## Packaging Pouch

### Spout Doypack

### Application

Tea, Drink, Condiment, Daily Laundry

### Characteristic

- 1.Built-in suction nozzle design, unscrew the lid to pour out the material.
- 2.The bag is convenient for controlling the flow of pouring or eating, reducing waste and spillage, especially suitable for viscous liquids such as honey, jam, yogurt, and sauces.
- 3.Advanced special properties can be presented through printing.
- 4.Convenience and User Friendly.

## Packaging Pouch

### Other Plastic products

### Characteristic

- 1.Can be printed according to user needs.
- 2.UV hot stamping, cold stamping, embossing printing to enhance the three-dimensional effect.
- 3.Can produce related packaging products that require lamination technology
- 4.Can produce special-shaped die-cut bags.
- 5.After aluminum is composited, partial aluminum washing can be performed on the bag surface to make it transparent and visible

## Packaging Machine

### HL-1515 Series

### HIGH-SPEED PACKAGING MACHINE

### HL-1515J-YQ

## Packaging Machine

### HL-1515 Series

### HL-1515J-YQ

### Popular products

Coffee, Jelly, Medicine Powder, Nut, Popping Candy, Sauce

### HL-VFFS 4230 Inout Pack Production Line

## Packaging Machine

### HL-DP Series

### AUTOMATIC DOYPACK MACHINE

### Specification

Model	HL-DP200/300 Automatic Doypack Machine
Machine Weight	1600KG(Main Machine)
Dimension	L1560 x W2300 x H4600(Main Machine)
Power&Air Pressure	380V 50HZ 2.3KW <0.6m³/min
Bag Size	Width:60-300mm Length:120-500mm
Packaging Speed	15-80 Pouch/min

## Packaging Machine

### HL-DP Series

### HL-DP Series

### Characteristics

HL-SP200 Mini Doypack Packaging Machine.it can be equipped with vibratory weigher,liquid pump,servo electric auger, servo electric turntable etc filling systems.It can be used for packaging liquid,sauces,powder,granules and pieces etc.It can be applied to zipper bags,standup bags, and 8 sided sealing bags etc.

## Packaging Machine

### FILLING MACHINE

### SPOUT POUCH FILLING MACHINES

### Specification

Model	HL-PS200 Spout Pouch Filling Packaging Machine
Machine Weight	350KG(Main Machine)
Dimension	1380mm x 1020mm x 2000mm
Power&Air Consumption	220V 50HZ 4.0KW 0.2L/min 4-6kgf/cm²
Packaging Speed	800pcs/H-3600pcs/H
Maximum bag size	Width:60-300mm Length:120-500mm
